SUMMARY

Detail-oriented Data Analyst with hands-on experience delivering end-to-end analytics solutions across HR, supply chain, and customer domains. Proficient in Microsoft Excel, Microsoft Power BI, and SQL with a strong foundation in data quality, data governance principles, and KPI dashboard development. Collaborative team contributor ready to support senior analysts, maintain organized data records, and build foundational skills in enterprise business data services.

PROFESSIONAL EXPERIENCE

Data Analyst Intern, [Analytics Career Connect](#) 🌐

06/2026 – Present
HYDERABAD

- Analyzed business datasets using Excel and SQL.
- Performed data cleaning and exploratory data analysis.
- Built reports and documented analytical findings.
- Strengthened practical skills in data analysis and business problem-solving.

PROJECT EXPERIENCE

[HR Workforce Intelligence Dashboard](#) 🌐 , Excel & Power BI

- Built a Power BI dashboard tracking 6 KPIs across 1,470 employees; analyzed age, tenure, salary, and job satisfaction to model attrition risk factors.
- Applied data quality, governance, and standardization practices to ensure reproducible, compliance-oriented reporting.
- Delivered client-ready reports translating analytical findings into clear business narratives for senior stakeholders.

[Enterprise Supply Chain Optimization & Operations Intelligence](#) 🌐 , Python · SQL · Power BI

- Analyzed 1,000 orders (₹26.53M) across 4 regions using SQL and Python to identify operational trends and model revenue/profit forecasts.
- Assessed supplier risk across 4 vendors on defect rate, lead time, and revenue — flagging the highest-risk supplier (264 defects) and quantifying stockout-driven revenue exposure.
- Applied process optimization analysis to deliver actionable regional logistics recommendations.

[Customer Churn Analysis & Retention Intelligence Dashboard](#) 🌐 , Python · SQL · Power BI

- Analyzed 7,032 telecom customer records using Python (EDA) and SQL, applying ML techniques to identify behavioral drivers behind a 26.6% churn rate.
- Built a 3-tier risk segmentation model with Scikit-learn using unsupervised clustering to surface high-risk customer cohorts.
- Delivered a Power BI dashboard tracking churn rate, revenue exposure, and contract-level risk to support stakeholder decision-making.

SKILLS

Programming Languages: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), SQL, MySQL, Microsoft SQL Server

Data Management & Quality: Data Quality, Data Governance, Master Data Management (MDM), Data Cleaning, EDA

Data Visualization & Reporting: Microsoft Power BI, DAX, Power Query, Advanced Excel

Analytical & Soft Skills: KPI Dashboard Development, Feature Engineering, Business Storytelling, Collaboration, Personal Effectiveness, Client Reporting, Cross-functional Communication, Business Analyst, Stakeholder Management, Requirements Gathering, Process Improvement, Finance Domain, Enterprise Reporting, Data Standardization, Data Collection, Industry Trends

EDUCATION

BTech, St.Martins Engineering College

Artificial Intelligence and Data Science
CGPA-8.03

2023 – 2027
Hyderabad

Intermediate, Sri Chaitanya Junior College

Mathematics & Physics, Chemistry(MPC)
PERCENTAGE-93%

2021 – 2023
Hyderabad

School, Sacred Heart Academy

CGPA-95%

2021
Nizamabad

CERTIFICATES & ACHIEVEMENTS

[Deloitte Data Analytics Virtual Experience Program](#) 🌐

[Tata Data Visualization Virtual Experience Program](#) 🌐

[Udemy Data Science, Machine Learning, DL, NLP Bootcamp](#) 🌐

Qualified JEE Main with 75+ percentile (Top 25% nationwide among 11+ lakh candidates)

[Unstop Code Crackdown by Amity University\(AU\)](#) 🌐
